

Curriculum Vitae

Jan Peter Sendzimir

Home address:
562 N.E. 2nd Avenue
Gainesville, FL 32601 USA
Tel: 904-373-7567
email: jan@zoo.ufl.edu

Office address:
111 Bartram Hall
Department of Zoology
University of Florida
Gainesville, FL 32611 USA
Tel: 904-392-1040

Personal History

Birthdate: 20 September, 1950

Education:

- Ph.D. Environmental Engineering Sciences
University of Florida, May 1998
- M.Sc. Systems Ecology, Environmental Engineering Sciences
University of Florida, August 1984
- M.A. Teaching Biology, Rhode Island College, August 1976
- B.A. Biology, Magna Cum Laude, Hiram College, June 1974

Foreign Languages: French, German

Experience

- Director of International Development for The Science and Policy Partnership for Sustainable Development (Gainesville, FL). 1997 to present
- Board of Directors - The CEIBA Foundation. 1997 to present
- President, The Sendzimir Foundation. 1994 to present
- Board of Directors - The Kosciuszko Foundation. 1985 to 1996
- Ecologist, Ecological Engineer, and Land Use Planner. 1985 to 1990
- Research Scholar - Delta Institute for Hydrobiological Research, Yerseke, Zeeland, Netherlands. 1984
- Research Scholar - International Institute of Applied Systems Analysis, Laxenburg, Austria. 1983

Statement of Interests

I am interested in environmental issues at global, regional, ecosystem and community levels, particularly the dynamics of human, animal and plant communities in response to disturbances at different time and space scales. From an applied perspective these issues are at the heart of sustainable development in a future of scarcer fossil fuel and mineral resources. Of particular concern in addressing the interface between the human and natural worlds is the evolution of environmental management systems and policies which flexibly adapt to emerging conditions.
